CIP Cleaners and Sanitizers

Alkaline Sanitizers - Chlorinated

Powders

▲ Sterolab

High alkaline cleaning and disinfecting powder with color indicator

Sterolab is a chlorinated high alkaline pink powder providing cleaning, disinfecting, deodorizing, water softening properties. It also offers a self test lab feature.

Unique Built-In Color Indicator

Sterolab contains a built-in indicator acting as a “private laboratory” and was specifically developed for dairy farms, milking equipment, and dairy factory applications. The solution’s color changes from pink to grey/greenish when milk residues still exist in the system. A pink solution at the end of the circulation process ensures a completely clean system.

In addition to CIP cleaning Sterolab is suitable for manual cleaning of equipment and surfaces.

Features & Benefits:

- Kills bacteria and other germs and deodorises surfaces and equipment
- Does not require any special equipment for use
- Sterolab is a powder and has a longer shelf life compared to chlorinated liquids:
- Non-corrosive to stainless steel, plastic, glass
- Safe to use
- Dissolves easily in water and is non foaming

pH 11.5-12.5

Unique color indicator

Packing Options*
15 kg pail
25 kg bag

▲ Sterotop

High alkaline, heavy duty chlorinated cleaning and disinfecting powder

High alkaline and high chlorine content reduces required cleaning time.

pH 12.0-13.0

Packing Options*
15 kg pail
25 kg bag
130 kg drum

▲ Sterotop KC

High alkaline, chlorinated non sodium and phosphate free powder

An environmentally friendly cleaning, disinfecting and deodorizing free flowing powder.

Packing Options*
15 kg pail
25 kg bag
130 kg drum

Liquids

▲ Steroclear LPC

Chlorinated, high alkaline non foaming liquid cleaner

Has cleaning, water softening, disinfecting and deodorizing properties. Convenient for use with automatic dosage systems.

pH 11.5-13.5

Packing Options*
23 kg jerry can

CIP Cleaners

Alkaline Cleaners - Non Chlorinated

Powders

▲ Triphos

High alkaline cleaning powder

Triphos is a cleaning and water softening powder. The product is used to clean equipment in the dairy farms and milk industries when there is a desire to first clean before the sanitizing process with a separate sanitizer.

Packing Options*
15 kg pail
25 kg bag
750 kg supersac

CIP Cleaners and Sanitizers

Alkaline Cleaners - Oxygen Based

▲ Sterodair Oxy

Oxygen based cleaning and disinfecting powder

A safe (non foaming) cleaning, disinfecting, whitening, deodorizing, oxygen based powder.

pH 10.5-11.5

Packing Options*
15 kg pail
25 kg bag
750 kg supersac

▲ Sterodair Oxy F

Oxygen based cleaning & disinfecting powder with foaming properties

Used for spraying or soaking applications. Developed specifically for cleaning vertical surfaces (exterior surfaces of stainless steel containers, walls, etc.).

Packing Options*
15 kg pail
25 kg bag

▲ Sterotop Oxy

Oxygen based, heavy duty cleaning and disinfecting powder

Reduces required cleaning time.

Packing Options*
15 kg pail
25 kg bag
130 kg drum

Phosphate Free, Alkaline Cleaners - Oxygen Based

Phosphate
Free

▲ Sterodair Oxy K

Oxygen based phosphate free cleaning and disinfecting powder (non foaming)

Environmentally friendly cleaning, disinfecting, whitening and deodorizes oxygen based powder.

Packing Options*
15 kg pail
25 kg bag
750 kg supersac

▲ Sterodair Oxy KF

Oxygen based low sodium, phosphate free cleaning and disinfecting powder (high foaming)

A safe cleaning, disinfecting, whitening, deodorizing, oxygen based powder.

pH 10.0-11.5

Packing Options*
15 kg pail
25 kg bag

Acid Cleaners

Powders

▲ Sterobrite D

Heavy duty acidic powder C.I.P. descaler

Dissolves formations of calcium, which are formed as a result of use of hard water. Highly acidic and effective at removing inorganic soils protein and starch.

pH 1.5-2.5

Packing Options*
15 kg pail
25 kg bag

Liquids

▲ Steroscale LR

Non-foaming, heavy duty liquid rinse and descaler based on phosphoric acid

Dissolves formations of milkstone and hard water stone.

pH 1.0-2.0

Packing Options*
24 kg jerrycan

▲ Steroscale LMT

Low foaming, heavy duty liquid rinse and descaler

Dissolves formations of milkstone and hard water stone.

pH 1.5-2.0

Packing Options*
24 kg jerrycan

Milking Parlor Cleaning

▲ Sterolab

High alkaline cleaning and disinfecting powder

Suitable for cleaning surfaces and equipment around the dairy parlor.

pH 11.5-12.5

Packing Options*
15 kg pail
25 kg bag

▲ Sterofoam

Chlorinated alkaline foaming cleaning & disinfecting liquid

Allows increased contact time on surfaces for easier cleaning of exterior vertical surfaces, cleaning of walls in production area. Suitable to use on stainless steel containers and equipment.

pH 10.5-11.5

Packing Options*
24 kg jerrycan

Udder Care

▲ Sterodair Wipes

Dairy wet towels for cow udder disinfection

Soaked with a quick acting and effective disinfectant, formulated to destroy a wide range of microorganisms including pathogenic bacteria which cause mastitis. 4 in 1 action: Physical cleaning, disinfectant of teat, instant drying of teat, disinfection of farmer's hand.

Packing Options*
Pail-containing 700 wipes
Refill for pail-700 wipes

▲ Iodor Iodine Teat Dips

Concentrated teat disinfectant

A dark brown, iodophor teat dip concentrate containing available iodine with glycerin and sorbitol as emollients.

Available in two concentrates:

- **Iodor 2** Dilution ratio of 1:4
- **Iodor 9** Dilution ratio of 1:20

Also available as a ready to use dip:

- **Iodor 0.4**

Packing Options*
10 kg jerrycan
20 kg jerrycan
