Cleaning and Disinfecting Solutions

## General Catalog

R & D

Manufacturing

Private Label

## Sterokem

**Sterokem**, based in Haifa, Israel, is involved in development, production and marketing of chemicals and detergents. The company also produces products for the retail market (household and personal care) as well as for the industrial market (raw materials, intermediates and finished goods for the I & I markets).

While products are available in form of liquids or pastes, **Sterokem** specializes in private label and branded manufacturing of powders in diversified formulations and packaging options. Many of these products are based on in-house sophisticated production abilities and advanced chemical reaction processes. The company is accredited for the ISO 9002 standard.

## Products

**Sterokem**'s activities are conducted in 4 main areas:

- **Raw materials and Detergent Intermediates:**  
Including Trisodium Phosphate (TSP) and Chlorinated Trisodium Phosphate (CTSP).
- **Industrial & Institutional (I & I) Cleaning and Disinfecting Products:**  
Professional cleaning and disinfecting products for the food industry and Institutional markets including: dairy, dairy farms, breweries, wineries, food factories, hotels, hospitals, laundries, etc.
- **Retail Household Products**  
Laundry powders and softeners, washing powders, floor cleaners, multipurpose cleaners (both liquid and powder), etc.
- **Personal Care Products**  
Toiletries and Body Care products – products for hand, body and face including products based on Dead Sea Minerals.

## R & D

Supported by a strong technical and research and development team, **Sterokem** specializes in developing products in partnership with its customers and is dedicated to customer service, in order to understand and promptly acts upon customers' changing needs.

**Sterokem** provides applicative solutions for the industrial & institutional markets, as well as formulated products for the retail market. **Sterokem** develops and provides solutions that make its customer's products more valuable.

## Private Label/Contract Manufacturing

**Sterokem** has helped to create a variety of **private label** products with major well known multinational consumer and industrial detergent manufacturers and marketing companies in both the local and export market.

## Sterokem Worldwide

**Sterokem** sells its wide range of products, through exclusive distributors, to worldwide markets including Australia, Belgium, Canada, Costa Rica, Cyprus, France, Germany, Holland, Ireland, Italy, Japan, Kenya, Malaysia, Singapore, Spain, United Kingdom and the United States. **Sterokem** acts in the local market on a private label basis only, while in overseas markets the company acts on both, private label and its own brands.

## Joint Ventures

**Sterokem** offers **joint ventures** to companies and investors in overseas countries, whereby the manufacturing experience and know-how of the company is open for mutual cooperation.

## 4 in 1 Chlorinated Multipurpose Powders

- Cleans • Disinfects • Whitens • Deodorizes

Sterokem offers a wide range of 4 in 1 alkaline multipurpose cleaning, disinfecting, deodorizes and whitening powders. These powders are available in several chlorinated versions (with or without scouring effect) or in oxygen based versions.

### Applications

Cleaning & disinfecting of: bathrooms, showers, ceramic (tile covered walls), marble, sinks and bowls, excellent for floor cleaning, stainless steel surfaces and sinks, restaurants, medical clinics, hospitals, etc. Soaking non aluminum utensils (pots, pans, dishes, and cutlery) in both household, institutional & industrial use. (scouring version not suitable for all above applications)

### ▲ Sterotek

**Multipurpose cleaning and disinfecting powder high alkaline powder** (available in white or pink powder)

Cleaning & disinfecting of pots, pans, dishes, and cutlery, bathrooms, showers, ceramics (tile covered walls), marble, sinks and bowls. Excellent for floor cleaning and disinfecting. Fully soluble.

pH 10.5-11.5

### ▲ Sterotek S - with scouring properties

**Multipurpose cleaning and disinfecting scouring powder** (available in white or pink powder)

Cleaning & disinfecting of pots and pans, bathrooms, showers, ceramics (tile covered walls), marble, sinks and bowls.

pH 10.0-11.0

### ▲ Sanigarden

**White chlorinated powder cleaner for plastic lawn/garden furniture**

Suitable for garden furniture, removes dirt and grease, removes stains from leaf stains, wine and oil.

pH 10.0-11.0

### Packing Options\*

All the above products are available in:  
500 gr. shaker bottle, 800 g jar, 3 kg jar, 10/15 kg pail,  
25 kg bag, 750 kg supersac.

\* Other packing available upon request

# MULTIPURPOSE PRODUCTS

## 4 in 1 Oxygenated Multipurpose Powders

### ▲ Oxytek LTF

#### Active oxygenated multipurpose cleaner and laundry additive

General cleaning/stain remover, high bleaching and disinfecting effect on white laundry. High refreshing effect on colored laundry removes well food stains from fabric.

pH 10.0-11.0

Packing Options\*  
800 g jar  
15 kg pail  
25 kg bag  
750 kg supersac

### ▲ Sanitek

#### Bubbling/foaming multipurpose cleaning powder

Cleaner, bactericide and sanitizer of surfaces in: food industry (wines, soft drinks, dairies), hospitals, catering, kitchen, restaurants (floors, carpets, bowls, tap, ceramic, sinks, plastic furniture, etc).

pH 8.5-10.5

Packing Options\*  
800 g jar

### ▲ Sterotek Oxy

#### Oxygenated multipurpose cleaning powder

Cleaning & disinfecting of pots, pans, dishes and cutlery, bathrooms, showers, ceramics (tile covered walls), marble, sinks and bowls. Excellent for floor cleaning.

pH 10.5-11.5

Packing Options\*  
500 gr. shaker bottle  
800 gr. jar  
15 kg pail  
25 kg bag  
750 kg supersac

### ▲ Sterotek NP Oxy

#### Phosphate free version of Sterotek Oxy

Packing Options\*  
500 gr. shaker bottle  
800 gr. jar  
15 kg pail  
25 kg bag  
750 kg supersac

## Multipurpose Paste, Cream, Liquid

### ▲ Steropaste

#### Multipurpose cleaning paste

Combines strong cleaning power and pleasant fragrance. Great for a wide range of household (dishes, surfaces, utensils, floors), hand laundry and outdoors (garden furniture) applications. Available in three fragrances: orange, jasmine and lemon.

pH 7.0-9.5

Packing Options\*  
1 kg pail  
3.5 kg pail  
5 kg pail  
16 kg pail  
180 kg drum

### ▲ Sterocream Liquid Cleanser

#### Orange fragranced multipurpose cream cleanser

Cleaning, polishing and deodorizing in one action. Pleasantly fragranced.

Packing Options\*  
500 g bottle  
200 kg drum

### ▲ Multipurpose Liquid Cleaner

Lemon scented multipurpose liquid suitable for a wide range of household and institutional cleaning applications.

pH 11.0-12.0

Packing Options  
750 ml bottle spray  
4 liter bottle  
25 kg jerrycan  
200 kg drum  
IBC

\* Other packing available upon request

## Cleaners and Sanitizers

### Chlorinated Alkaline Powders

#### ▲ SteroKlor

##### Chlorinated Cleaner, Sanitizer and Destainer Powder (non foaming)

**SteroKlor**, available in a white or pink powder, is an effective and powerful 4 in 1 product providing cleaning, sanitizing, water softening, and deodorizing properties.

##### Applications:

**Food Service and Hospitality Industry:** Hotels, Restaurants, Kitchens, Catering

- Cleans and sanitizes surfaces (sinks, counters, walls, floors) and equipment in food preparation areas.

**Food Processing Industry:** Dairy/Milk, Beverage, Wineries, Breweries, Meat Plants.

- Cleans and sanitizes surfaces and equipment either manually or in closed (CIP) systems

##### Features & Benefits:

- Pink grade of Steroklor contains a built in color indicator
- Kills bacteria and other germs and deodorises surfaces and equipment
- Does not require any special equipment for use
- Sterolab is a powder and has a longer shelf life compared to chlorinated liquids:
- Non-corrosive to stainless steel, plastic, glass
- Safe to use
- Dissolves easily in water and is non foaming

##### Unique color indicator

Packing Options\*  
3 kg jar  
15 kg pail  
25 kg bag

pH 11.5-12.5

#### ▲ Sterotek Multi

##### White chlorinated cleaning & sanitizing powder (low foaming)

Non fragranced with no distinct odor. Ideal for cleaning and sanitizing dishes, food preparation surfaces including cutting boards of meat, vegetables, etc.

pH 10.5-11.5

Packing Options\*  
500 gr. shaker bottle  
1kg jar  
3 kg jar  
15 kg pail

#### ▲ Sterodish C

##### White chlorinated cleaning & sanitizing powder for soaking plastic dishes (low foaming)

Cleaning & sanitizing of dishes.

pH 10.5-11.5

Packing Options\*  
1 kg pail  
3 kg jar  
15 kg pail

### Oxygenated Alkaline Powders

#### ▲ Sterox

##### Oxygenated cleaning & disinfecting powder (non foaming)

Cleans, sanitizes, whitens & deodorizes in one action. Used to clean and sanitize equipment in the food and beverage industry.

pH 10.5-11.5

Packing Options\*  
3 kg jar  
15 kg pail  
25 kg bag  
750 kg supersac

#### ▲ Sterox F

##### Oxygenated cleaning & disinfecting powder with foaming properties

Cleans, sanitizes, whitens & deodorizes in one action of exterior vertical surfaces of stainless steel. Cleaning & sanitizing of walls in production area.

pH 10.5-11.5

Packing Options\*  
15 kg pail  
25 kg bag

#### ▲ Sterox Multi

##### Oxygenated cleaning & sanitizing powder (low foaming)

Ideal for cleaning and sanitizing cutting boards of meats and other food contact surfaces in the food industry.

pH 10.5-11.5

Packing Options\*  
500 gr. shaker bottle  
1 kg jar  
3 kg jar  
15 kg pail

#### ▲ Sterodish O

##### Oxygenated cleaning & sanitizing powder for soaking plastic dishes

Cleaning & sanitizing of dishes. Low foaming.

pH 10.5-11.5

Packing Options\*  
3 kg jar  
15 kg pail

\* Other packing available upon request

## Phosphate Free Oxygen Based Alkaline Powders

Sterokem has developed several products that are friendlier to the environment including products that are phosphate free, non chlorinated, low sodium, etc.

### ▲ Sterox K

**Oxygen based phosphate free cleaning and disinfecting powder (non foaming)**

This is a low sodium, non foaming, chlorine free and phosphate free alkaline powder, used to clean and sanitize equipment in the food and beverage industry.

pH 10.0-11.5

Packing Options\*  
3 kg jar  
15 kg pail  
25 kg bag

### ▲ Sterox KF

**Oxygen based low sodium, phosphate free cleaning and disinfecting powder (high foaming)**

Cleaning & disinfecting of exterior vertical surfaces of stainless steel.  
Cleaning & disinfecting of walls in production area.

pH 10.0-11.5

Packing Options\*  
15 kg pail  
25 kg bag

### ▲ Sterox K Multi

**Oxygen based phosphate free cleaning and disinfecting powder (low foaming)**

Ideal for cleaning and sanitizing cutting boards of meats, and other surfaces in the food industry.

pH 10.0-11.5

\*Packing Options\*  
500 gr. shaker bottle,  
1 kg jar  
3 kg jar  
15 kg pail

## Acid Based Cleaners

### ▲ Sterobrite P

**Highly acidic cleaning powder**

Cleans and brightens stainless steel cutlery by soaking. Ideal for removing rust, effective at removing inorganic soils, proteins & starch.

pH 1.5-2.5

Packing Options\*  
15 kg pail  
25 kg bag

### ▲ Sterobrite L

**Highly acidic cleaning liquid**

Cleans and brightens stainless steel cutlery by soaking. Ideal for removing rust. Highly acidic non-foaming liquid, effective at removing inorganic soils, proteins & starch.

pH 1.5-2.5

Packing Options\*  
25 kg jerrycan

## Dishwashing Paste & Liquid

### ▲ Steropaste (12/20/37%)

**Dishwashing and all-purpose cleaning paste**

Highly effective cleaning of dishes. Cuts through grease. Economic usage, contains skin protection agents, easily rinsed, especially suited for use by hand. Available in white-Jasmine and yellow-lemon versions.

pH 7.5-9.5

Packing Options\*  
3.5 kg pail  
5 kg pail  
16 kg pail  
180 kg drum

### ▲ Dishwashing Liquids

**Household cleaning liquid for dishwashing and general household purposes**

Primarily used for hand washing of glasses, plates, cutlery, and cooking utensils in a sink or bowl. Dissolves and rinses easily, suitable for dispensers, pleasant fragrance, includes skin caring agents.

pH 6.0-8.0

Packing Options\*  
750 g bottle  
4 liter bottle  
IBC

\* Other packing available upon request

## Dishwashing Powders (for automatic dishwashers)

### ▲ DishKlor

#### Institutional cleaning powder for dishwashing machine

Chlorinated powder detergent removes tough stains including lipstick, coffee and tea stains. Removes dried on foods and stains. Easily dissolves, high cleaning effect.

pH 11.5-12.5

Packing Options\*  
1.5 kg pail  
3 kg jar  
15 kg pail

### ▲ DishOxy

#### Institutional cleaning powder for dishwashing machine

Oxygenated powder detergent removes tough stains including lipstick, coffee and tea stains. Removes dried on foods and tough stains. Easily dissolved, high cleaning effect.

pH 11.5-12.5

Packing Options\*  
1.5 kg pail  
3 kg jar  
15 kg pail

### ▲ DishOxy PF

#### Phosphate free oxygenated dishwashing powder

Phosphate Free

Institutional cleaning powder for dishwashing machine.

High-alkaline, oxygenated powder detergent removes tough stains including lipstick, coffee and tea stains. Removes dried on foods and tough stains.

Packing Options\*  
1.5 kg pail  
3 kg jar  
15 kg pail

## Grease Removers

### ▲ Degreaser Classic

#### Heavy duty high foam grease remover (spray)

Convenient spray bottle. Cuts through grease with or without heating. High concentration of active materials.

Packing Options\*  
750 ml spray bottle

### ▲ Degreaser C

#### Heavy duty grease remover especially for grillers/ovens

Cuts through grease without heating. High concentration of active materials.

Packing Options\*  
4 liter bottle  
25 kg jerrycan

### ▲ Degreaser S

#### Heavy duty high alkaline grease remover for soaking applications

Cuts through grease without heating. High concentration of active materials. Especially suited for soaking applications.

Packing Options\*  
4 liter bottle  
25 kg jerrycan

### ▲ Klinofat

#### Heavy duty decarbonizer grease remover powder

Cleans heavily cooked fat and cooking grease from cooking pots, utensils, deep fryers, fryer ventilation hoods, etc.

Packing Options\*  
4 liter bottle  
25 kg jerrycan

\* Other packing available upon request

# FLOOR & CARPET CLEANERS

## Liquid Floor Cleaners

### ▲ Liquid Floor Cleaner

Cleans floor leaving a pleasant scent

Available in various formulations & fragrances (Exotic, Jasmine, Rose).

pH 7.0-8.0

Packing Options\*  
4 liter,  
20 liter jerrycan  
200 kg drum

### ▲ Liquid Floor Cleaner & Wax

Cleans and waxes floor leaving a pleasant scent

Available in various formulations & fragrances.

pH 7.0-8.0

Packing Options\*  
4 liter  
20 liter jerrycan  
200 kg drum

### ▲ Sanifresh

Cleaning, disinfecting & deodorizing liquid cleaner

Ideal for hospital & convalescent homes floors, where strong deodorizing effect is required. High cleaning effect, long lasting deodorizing effect, good solubility and economic in use.

pH 5.0-7.0

Packing Options\*  
1 liter bottle  
20 liter jerrycan

## Powder Floor Cleaners

### ▲ Sanifloor HD

Heavy duty floor cleaning powder

Cleans floor and surfaces by removing heavy grease and dirt.

Suitable for use on garage floors, petrol stations and floors and walls in production areas.

pH 11.5-12.5

Packing Options\*  
15 kg pail

### ▲ Sterotek

Chlorinated cleaning & disinfecting powder

High efficiency 4 in 1 cleaning, sanitizing and degreasing.

Fragranced & foaming powder with deodorizing effect.

pH 10.5-11.5

Packing Options\*  
10/15 kg pail  
25 kg bag

## Powder Carpet Cleaners/Refreshers

### ▲ Sanicarpet

Carpet cleaning and sanitizing powder

Bubbles and foams on contact with water to remove heavy stains from carpets.

"Refreshes" color and deodorizes bad smell from all types of carpets.

pH 8.5-9.5

Packing Options\*  
500 g shaker bottle  
25 kg bag

### ▲ Sanicarpet Freshener

Carpet deodorizer powder

Refreshes carpets with a pleasant smell in homes, hotels and the institutional market.

pH 8.5-9.5

Packing Options\*  
500 g shaker bottle  
25 kg bag

### ▲ Oxytek LTF

Active oxygen based multipurpose cleaner

Removes well stains from carpet.

pH 10.0-11.0

Packing Options\*  
500 g shaker bottle  
800 g jar  
15 kg pail

\* Other packing available upon request

[www.sterokem.com](http://www.sterokem.com)

# LAUNDRY PRODUCTS

## Whitening / Bleaching / Oxidant Powders

### ▲ Acticlор

#### Pre-wash / additive laundry whitening powder

High bleaching, washing, deodorizing and sanitizing effect. Removes stains and freshens laundry. Suitable for use in hot or cold water, good solubility, non-foaming without the tendency to cake. High concentration and stability of active chlorine and therefore long shelf life (compared to liquids).

pH 9.5-10.5

Packing Options\*  
15 kg pail  
25 kg bag

### ▲ Oxytek LT

#### Active oxygen laundry stain remover and additive

Suitable for low temperature laundry. High bleaching effect on white laundry. High refreshing effect on colored laundry. Removes well stains from laundry. Suitable for delicate fabrics. No neutralization required-unlike chlorine based additives.

Packing Options\*  
800 g jar  
15 kg pail  
25 kg bag

### ▲ Oxytek HT

#### Active oxygen laundry stain remover and additive

Suitable for high temperature laundry. High bleaching effect on white laundry. High refreshing effect on colored laundry. Removes well stains from laundry. Suitable for delicate fabrics. No neutralization required-unlike chlorine based additives.

pH 10.0-11.0

Packing Options\*  
800 g jar  
15 kg pail  
25 kg bag

## Prewash & Stain Removers

### ▲ Presol

#### Liquid pre-wash spot and stain remover for laundry

Highly effective liquid for removal of heavy dirt and other stubborn stains.

Packing Options\*  
20 kg jerrycan

### ▲ Stain Remover Paste

Removes stain and dirt from fabric.

Packing Options\*  
roll-on/tube

## Laundry Powder & Fabric Softeners

### ▲ Laundry Powder

Various formulations for industrial and household applications

Packing Options\*  
4 kg bag  
6 kg bag  
15 kg pail  
750 kg supersac

### ▲ Fabric Softeners

Softens laundry, leaves pleasant smell.

Contains anti static agents.

Available in various fragrances/colors including: pink, blue, purple, white.

Packing Options\*  
4 liter  
20 kg  
200 kg drum  
IBC

\* Other packing available upon request

# JAFFA ORANGE CLEANING PRODUCTS

## ▲ Jaffa Multipurpose Paste

### Multipurpose orange color and scented cleaning paste

Combines strong cleaning power and pleasant fragrance of natural orange oil. Great for a wide range of household (dishes, surfaces, utensils, floors), hand laundry and outdoors (garden furniture) applications.

pH 7.0-9.5

Packing Options\*  
1 kg pail  
3.5 kg pail  
5 kg pail  
16 kg pail  
180 kg drum

## ▲ Jaffa Multipurpose Liquid Cleaner

### Orange fragrance multipurpose cleaner

Suitable for a wide range of household and institutional cleaning applications.

pH 11.0-12.0

Packing Options\*  
750 ml sprayer bottle

## ▲ Jaffa Dishwashing Liquid

### Household dishwashing liquid cleaner

Contains natural orange extract for dishwashing and general household cleaning.

pH 6.5-8.5

Packing Options\*  
750 ml bottle

## ▲ Jaffa Hand Sanitizer Gel

### Alcohol-based hand sanitizer

Orange scented gel containing surface-active agents, skin care and additives. More effective than soap and water in killing bacteria and viruses that causes diseases. No water required. Contains skin protection agents (vitamin E). Clinically proven to kill 99.99% of germs.

pH 6.0-7.0

Packing Options\*  
60 ml bottle in a 24 unit display carton  
500 g bottle

## ▲ Jaffa Liquid Soap

### Orange scented liquid soap

Suitable for hand and body. Leaves skin clean and refreshed.

Packing Options\*  
500 ml bottle

## ▲ Jaffa Citrus Heavy Duty Hand Cleaner

### Waterless hand cleaner

Orange scented cream cleaner has been specially developed to use as a heavy duty hand cleaner without water. Suitable for uses by mechanics, garages, home repairs, etc. Contains natural ingredients surface-active agents and additives. Removes the toughest grease, ink, tar, etc., yet leaves hands clean soft and fresh smelling. Safe on skin.

Packing Options\*  
500 g bottle  
1 kg pail  
15 kg pail

\* Other packing available upon request

# HAND SANITIZERS, HAND SOAP

## Hand Sanitizer

### Hand Sanitizer Gel

#### Alcohol-based hand sanitizer

Containing surface-active agents, skin care and additives. More effective than soap and water in killing bacteria and viruses that causes diseases. No water required. Less skin dryness and irritation compared with washing with water. Contains Skin Protection Agents (vitamin E). Clinically proven to kill 99.99% of germs.

pH 6.0-7.0

Packing Options\*  
60 ml (24 units/display carton)  
500 g bottle

## Hand Soap

### Hand & Body Soap

#### Liquid hand and body soap

Neutral pH and safe on the most sensitive skin. Suitable for use in hot or cold water.

Packing Options\*  
500 ml  
4 liter

### Hand Soap

#### Liquid hand soap

Neutral pH and safe on the most sensitive skin. Available in a variety of scents and colors.

Packing Options\*  
500 ml  
4 liter

### Sterohand

#### Antibacterial liquid hand soap

Excellent cleaning effect.  
Strong antibacterial effect.  
Skin caring-no irritation to skin.

Packing Options\*  
500 ml  
4 liter

### Heavy Duty Hand Cleaner

#### Waterless hand cleaner

Specially developed to use as a heavy duty hand cleaner without water. Suitable for uses by mechanics, garages, home repairs, etc. Contains natural ingredients, surface-active agents and additives. Removes the toughest grease, ink, tar, etc., yet leaves hands clean soft and fresh smelling. Safe on skin.

Packing Options\*

4 liter pump

\* Other packing available upon request

## CIP Cleaners and Sanitizers

### Alkaline Sanitizers - Chlorinated

#### Powders

#### ▲ Sterolab

##### High alkaline cleaning and disinfecting powder with color indicator

**Sterolab** is a chlorinated high alkaline pink powder providing cleaning, disinfecting, deodorizing, water softening properties. It also offers a self test lab feature.

##### Unique Built-In Color Indicator

**Sterolab** contains a built-in indicator acting as a "private laboratory" and was specifically developed for dairy farms, milking equipment, and dairy factory applications. The solution's color changes from pink to grey/greenish when milk residues still exist in the system. A pink solution at the end of the circulation process ensures a completely clean system.

In addition to CIP cleaning Sterolab is suitable for manual cleaning of equipment and surfaces.

##### Features & Benefits:

- Kills bacteria and other germs and deodorises surfaces and equipment
- Does not require any special equipment for use
- Sterolab is a powder and has a longer shelf life compared to chlorinated liquids:
- Non-corrosive to stainless steel, plastic, glass
- Safe to use
- Dissolves easily in water and is non foaming

pH 11.5-12.5

##### Unique color indicator

Packing Options\*  
15 kg pail  
25 kg bag

#### ▲ Sterotop

##### High alkaline, heavy duty chlorinated cleaning and disinfecting powder

High alkaline and high chlorine content reduces required cleaning time.

pH 12.0-13.0

Packing Options\*  
15 kg pail  
25 kg bag  
130 kg drum

#### ▲ Sterotop KC

##### High alkaline, chlorinated non sodium and phosphate free powder

An environmentally friendly cleaning, disinfecting and deodorizing free flowing powder.

Packing Options\*  
15 kg pail  
25 kg bag  
130 kg drum

#### Liquids

#### ▲ Steroclear LPC

##### Chlorinated, high alkaline non foaming liquid cleaner

Has cleaning, water softening, disinfecting and deodorizing properties. Convenient for use with automatic dosage systems.

pH 11.5-13.5

Packing Options\*  
23 kg jerrycan

\* Other packing available upon request

## CIP Cleaners

### Alkaline Cleaners - Non Chlorinated

#### Powders

##### ▲ Triphos

###### High alkaline cleaning powder

Triphos is a cleaning and water softening powder. The product is used to clean equipment in the dairy farms and milk industries when there is a desire to first clean before the sanitizing process with a separate sanitizer.

Packing Options\*  
15 kg pail  
25 kg bag  
750 kg supersac

## CIP Cleaners and Sanitizers

### Alkaline Cleaners - Oxygen Based

##### ▲ Sterodair Oxy

###### Oxygen based cleaning and disinfecting powder

A safe (non foaming) cleaning, disinfecting, whitening, deodorizing, oxygen based powder.

pH 10.5-11.5

Packing Options\*  
15 kg pail  
25 kg bag  
750 kg supersac

##### ▲ Sterodair Oxy F

###### Oxygen based cleaning & disinfecting powder with foaming properties

Used for spraying or soaking applications. Developed specifically for cleaning vertical surfaces (exterior surfaces of stainless steel containers, walls, etc.).

Packing Options\*  
15 kg pail  
25 kg bag

##### ▲ Sterotop Oxy

###### Oxygen based, heavy duty cleaning and disinfecting powder

Reduces required cleaning time.

Packing Options\*  
15 kg pail  
25 kg bag  
130 kg drum

### Phosphate Free, Alkaline Cleaners - Oxygen Based

Phosphate Free

##### ▲ Sterodair Oxy K

###### Oxygen based phosphate free cleaning and disinfecting powder (non foaming)

Environmentally friendly cleaning, disinfecting, whitening and deodorizes oxygen based powder.

Packing Options\*  
15 kg pail  
25 kg bag  
750 kg supersac

##### ▲ Sterodair Oxy KF

###### Oxygen based low sodium, phosphate free cleaning and disinfecting powder (high foaming)

A safe cleaning, disinfecting, whitening, deodorizing, oxygen based powder.

pH 10.0-11.5

Packing Options\*  
15 kg pail  
25 kg bag

\* Other packing available upon request

## Acid Cleaners

### Powders

#### ▲ Sterobrite D

##### Heavy duty acidic powder C.I.P. descaler

Dissolves formations of calcium, which are formed as a result of use of hard water. Highly acidic and effective at removing inorganic soils protein and starch.

pH 1.5-2.5

Packing Options\*  
15 kg pail  
25 kg bag

### Liquids

#### ▲ Steroscale LR

##### Non-foaming, heavy duty liquid rinse and descaler based on phosphoric acid

Dissolves formations of milkstone and hard water stone.

pH 1.0-2.0

Packing Options\*  
24 kg jerrycan

#### ▲ Steroscale LMT

##### Low foaming, heavy duty liquid rinse and descaler

Dissolves formations of milkstone and hard water stone.

pH 1.5-2.0

Packing Options\*  
24 kg jerrycan

## Milking Parlor Cleaning

#### ▲ Sterolab

##### High alkaline cleaning and disinfecting powder

Suitable for cleaning surfaces and equipment around the dairy parlor.

pH 11.5-12.5

Packing Options\*  
15 kg pail  
25 kg bag

#### ▲ Sterofoam

##### Chlorinated alkaline foaming cleaning & disinfecting liquid

Allows increased contact time on surfaces for easier cleaning of exterior vertical surfaces, cleaning of walls in production area. Suitable to use on stainless steel containers and equipment.

pH 10.5-11.5
