

STEROCLEAR L

Chlorinated, High Alkaline Liquid Detergent

Technical Data Sheet

DESCRIPTION:

STEROCLEAR L is a high alkaline chlorinated non foaming liquid detergent for the dairy and dairy farm industry. For either manual or automatic cleaning and disinfecting of dairy equipment including, filling equipment, tanks, pumps, cooling equipment and other machinery coming into contact with milk and milk products.

FEATURES & BENEFITS:

STEROCLEAR L has cleaning, water softening, disinfecting and deodorizing properties. This product is non-corrosive to stainless steel, natural and synthetic rubber, plastic, glass, etc. Not suitable for use on aluminum.

SPECIFICATION:

Appearance:	liquid with a faint odour of chlorine
Colour:	colorless
P ^H (1% sol.)	12.0 – 13.0
Available chlorine	minimum 3.0%
Bulk density	1.195-1.205 gr./L

METHOD OF USE IN THE MILK INDUSTRY:

After milking, flush the system completely by circulating with tap water for 10-15 minutes, until traces of milk are no longer visible.

Dilute the product up to 0.5 – 1 % in warm water at temperature of 40-60 deg. C.
Circulate the solution in the system for 15-20 minutes. Rinse with tap water after cleaning .

SAFETY and STORAGE INSTRUCTIONS

Read label instructions before use ! Avoid contact with acids as it liberates toxic chlorine gas. Do not use on aluminum. Keep out of reach of children. In case of contact with skin, wash with plenty of cold water. In case of contact with eyes, rinse immediately with plenty of water and seek medical help. Wear plastic gloves. Wear goggles.

Store in cool dry place. Avoid direct sunlight. Keep away from animal, and animal feedstocks.

When not in use always keep container closed. Wipe over all spillages. *Full MSDS available upon request.*

Packing:

Packed in various packaging sizes including 20 litre jerrycans and 200 litre drums.
